

LAURENT PERROT

Line producer

I did a master's degree in business law. My passion for cinema soon led me to work on my first shoots in Canada, where I lived for over a year. On my return to France, I had my first experiences as a production assistant, then quickly became an assistant location manager and finally a location manager. My first film as production manager was in 2019. Since then, I've worked on different types of projects as production manager and line producer: features films, series and TV movies.

Member of the French Association of the Production managers (A.D.P.)
Member of the French Association of the Location managers (A.F.R.)
